

When to apply

Grant opportunities

Community can apply for TSRA grants through grant opportunities advertised on the [TSRA website](#). All grant applications received through a grant opportunity will be assessed by the TSRA.

On the [TSRA website](#) you will find:

- Opening and closing dates for grant opportunities
- **Grant Opportunity Guidelines** (important information about eligibility and grant activities)
- [General Information About Grant Opportunities](#) (important information about TSRA general eligibility and grant assessment processes)
- Link to the online application form.

After you have submitted your application, TSRA will assess your application and let you know if you are successful.

Late applications to grant opportunities

Always submit your application by the closing date. If needed, you can ask for an extension **before** the closing date. Extensions are not guaranteed.

Grant requests any time

TSRA can also consider grant requests any time. If there are no grant opportunities advertised on the [TSRA website](#), you can contact the TSRA (details at the bottom of this fact sheet) to discuss your ideas. If suitable, you may be invited to apply for a grant outside an advertised grant opportunity.

Receiving an invitation to apply for a grant outside an advertised grant opportunities is not guaranteed. The TSRA may not be able to invite you to apply for many reasons, including eligibility or available funding.

Don't leave it too late!

It can take up to 3 months to assess a grant request made outside an advertised grant opportunity. TSRA may not be able to assess your grant request if there is not enough time before your activity starts. Contact us as soon as possible before your activity starts to discuss grant funding.

How to apply

Applications for a grant from TSRA are made through an *online* application form. You will need access to a computer and internet to complete your application.

A link to the online application form will be available on the [TSRA website](#) (for grant opportunities), or provided to you by email when you are invited to apply (for grant requests any time).

Eligibility

Eligibility for grant opportunities may vary. Check the **Grant Opportunity Guidelines** to make sure you or your organisation is eligible.

Eligibility for grant requests any time is outlined in [General Information About Grant Opportunities](#).
